

# School Council Newsletter

‘Respect, Responsibility, Resilience’

## A Royal Event

We were cordially invited to celebrate the Coronation of King Charles III which we did with a truly British afternoon tea-style picnic in our finest wear.

## SATs Superstars!

This half term Year 6 and Year 2 have completed their SATs and have behaved “out of this world” ... joke intended.

## Summer Bloom

Nursery, Reception and Year 1 have gotten green fingers from all of the planting, gardening and growing they have done. Mrs Stewart is keeping a close eye on her strawberries... maybe the birds will have eaten them!

The next celebration event will be for **Diamonds!** Our School Council has worked alongside their classes to collate ideas and conduct a vote of preference. This will be a Cinema Night in the final half term.

## Upcoming Events

**1**

**HEALTHY EATING WEEK**

12-16 June 2023

**2**

**WATER SAFETY WEEK**

18-25 June 2023

**3**

**SPORTS DAY**

5 July 2023

### Our favourite joke and riddle:

How did the spider get smart?  
He searched the web.

Riddle: What is yours but mostly used by others?

### Get to Know Overdale:

Mr Donald lived in London for the first 26-years of his life! ... He can also wiggle his ears!

Miss Bonnett can play the flute and she reached Grade 5 in her music exams!  
Tuneful!

# Our Half Term Highlights

## NURSERY

We have become minibeast experts. we have learn that a butterfly has a proboscis which it uses to suck the nectar out of flowers! We have been super gardeners by planting wildflowers.

## RECEPTION

In Talk for Writing we have been learning about wolves. Wolves have 42 teeth, have a male and female alpha who lead the pack and run at speeds of up to 38mph when catching their prey! Super speedy!

## YEAR 1

In Science we have been exploring what makes a mammal. Not only do we know that we are a type of mammal but we also know that hedgehogs, pigs and lions are also in the same category!

## YEAR 2

In History we have explored how flight has developed. Sir George Cayley was an English Engineer who was born in Scarborough in 1773. He made the first succesful glider model that carried a 10-year-old boy!

## YEAR 3

In D&T we have been making seasonal tarts using healthy nutritious vegetables. The phrase "cool as a cucumber" comes from the cucumber's amazing ability to cool down the body and add hydration!

## YEAR 4

In science we have explored the digest system. Our digestive system starts with our mouth and teeth. We have 4 different types of teeth to help crush, grind and rip food ready for digestion - incisors, canines, molars and pre molars.

## YEAR 5

In History we have looked at the explorer Ernest Shackleton who tried to get to the South Pole 3 times on an expedition. He purchased 100 dogs for his expeditions. He was really resilient and kept on going and going!

## YEAR 6

We are set the challenge of becoming entrepreneurs. Year 6 are given £5 to establish a business venture to raise more funds such as through bake sales, car washes, and assistant work.
